

DRUM RUNNER

Model 5600

Lift - Carry - Weigh - Rotate - Pour

**Plastic, Steel, and Fiber Drums
Safely & Securely**

Durable load cell and eccentric ball for exceptional repeatability

Full weighing capabilities

User-friendly joystick controls; no fumbling with leaky jacks or valves

Large handle for maximum control and comfort

Adjustable air pressure regulator with easy-to-read gauges for monitoring system output

ASME Code-certified welded air tank takes typical shop air and is recharged in seconds

Industrial floor lock for precise positioning located between rear casters

165-psi pop-off/ relief valve

Sturdy, all-welded carbon steel tube frame for strength and durability

Stainless steel, sealed precision bearings for consistent tracking during lift cycles

No chain-to-drum contact eliminates drum damage

Tough, non-slip cradle liner

Cradle formed from 1½" 1018 carbon steel, square mechanical tubing - will not deform

Gear reducer (240:1) provides smooth, precise dispensing and eliminates pinch points (no chains to break)

Patented clamping assembly eliminates ratcheting and easily engages to grip drum tightly and prevent dropping

Oversized 8" phenolic casters roll easily under heavy loads

Innovative pneumatic lifting technology

**Spark resistant,
ideal for explosion-proof
environments**
